CARE POLICY SCORECARD LAUNCH EVENT

Care work needs to be valued, shared and invested in now more than ever. Progress on SDG 5 - Achieve Gender Equality - is behind target and COVID-19 has created additional challenges with increases in care work, poverty and precariousness that threaten to reverse gains in gender equality. Tools to support care-enabling policy environments are critically needed.

This event will launch the Care Policy Scorecard – a practical tool to support efforts to measure and monitor the extent to which government policies related to care are adopted, budgeted for and implemented, and the extent to which they have a transformative effect on the care economy.

Join us to learn more about the Scorecard and how you can use it as part of your care policy advocacy. The event will be in English and Spanish.
